

Wave

Stunning looks, infinite flexibility and very easy to use – ISOframe Wave the portable display system.

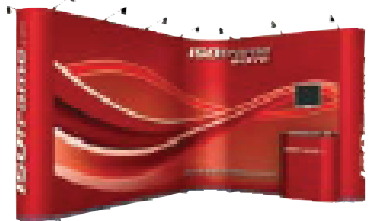

- ISOframe Wave links flexible graphics over any length of display which can then be flexed to follow almost any shape
- Choose the shape and size you need whilst you're setting up at the event - NOW THAT'S FLEXIBILITY!
- Superior quality graphic panels, either Lambda photographic prints or high quality inkjet prints with sandtex and spotlight laminate.
- Easy "no tools" assembly
- 3 sizes available - Mini 205 cm, Midi 225 cm, or Maxi 245 cm and all graphic panels are 800 mm wide
- Uses regular pop-up panels
- Graphic alignment system
- Build in LCD screens
- Easily attach tables and shelves

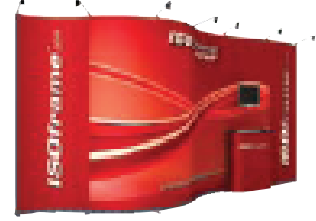

Alternative layouts, created using the same graphics and framework as the main image.
